

The Spacetime Orchestra: Observing the Universe's Grand Performance

Ritesh Bachhar^{1,*}

¹*Department of Physics and Center for Computational Research, East Hall, University of Rhode Island, Kingston, RI 02881*

(Dated: December 1, 2024)

I scienced something, so now you get to read it.

I. INTRODUCTION

I done did it. Some other people that done'd similar things:

II. METHODS

Here's how I done'd it.

Figure 1. What happened to Schrodinger's cat?

III. RESULTS

Here's what I found after I done'd it.
And Maxwell said:

$$dF = 0, \quad (1)$$

$$d_\star F = \mu_0 J. \quad (2)$$

and then there was light.

IV. CONCLUSION

Here's what you should learn now that I done'd it.

ACKNOWLEDGMENTS

We thank Bob Loblaw [1] for useful discussions. R.B. acknowledges support from NSF Grant No. PHY-2309301 and UMass Dartmouth's Marine and Undersea Technology (MUST) Research Program funded by the Office of Naval Research (ONR) under Grant No. N00014-23-1-2141. This material is based upon work supported by NSF's LIGO Laboratory which is a major facility fully funded by the NSF.
